

Date _____

NOTICE OF INTENT TO REPLACE RV ON SITE

Site# _____

Resident(s): _____

Email Address: _____

As per the rules and regulations for the campground, this is to notify the Tall Pines Management office of our intent to replace our current RV located on the site noted above. I understand that I/we must notify the Tall Pines office of the change before bringing in the new RV. **Please note that new/replacement RVs must be within 10 years of age. If the proposed RV is older than 10 years, please submit pictures to the office for approval.** I/we will need to provide the Tall Pines office with the information (Year, Make, Model, Serial#) for the new RV, along with updated insurance information, as well as provide a copy of the title for my resident file. I also understand that my site is subject to an inspection by Tall Pines management prior to moving in the new RV. Any violations must be corrected to bring the site into compliance.

Any "Grandfathered" construction will no longer be "Grandfathered" if there is a change to the RV currently on site. You will get an email with the results of the inspection. **Inspections are valid for six (6) months from date noted below.** Please allow up to (5) five days for the results.
